PETITION UNDER 37 CFR § 1.182

Box Petitions
Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Applicants respectfully request that petition be granted to permit entry of the attached Sequence Listing. Applicants recently became aware that these sequence listings were never submitted in the above-referenced patent application. Applicants note that the Patent Office never requested submission of the sequence listings.

The sequences in question merely are part of a working example and were never claimed. Applicants do not believe that the Examiner would have searched these sequences during prosecution and thus Applicants' previous failure to properly submit these sequences should have no bearing or consequence on the ultimate validity of the patent that will issue from this application. Applicants are submitting the sequence listings at this time in order to fully comply with the rules.
